Output :-

Welcome To Spring Boot CI-CD deployment

Git Hub: Application Deploy on git Hub

The screenshot displays a GitHub repository interface. At the top, navigation tabs include Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. The repository is named 'omkaroc27' and is currently on the 'master' branch, which is 1 commit ahead of the main branch. The commit history shows two commits: 'second commit' by 'omkaroc27' yesterday and 'first commit' by 'omkaroc27' 3 days ago. The file list includes '.mvn/wrapper', 'src', '.gitignore', 'dockerfile', 'mvnw', 'mvnw.cmd', and 'pom.xml'. The right sidebar shows the 'About' section with a note that no description, website, or topics are provided. Below this, the 'Releases' section indicates no releases have been published, and the 'Packages' section indicates no packages have been published. The 'Languages' section shows that the repository is 100% Java. A bottom banner encourages adding a README file to help people understand the project.

3) in Jenkins I create three build for continues deployment

And pipeline them

**build a CI/CD pipeline to demonstrate
continuous deployment**
